Saturday, June 23rd from 8–11 PM

Musical performance by Bill Nace

**SOCCER CLUB CLUB** is pleased to announce the opening of our summer group show. Bringing together black-and-white and darkly monochrome works in a variety of media, the show addresses the human form and it's proxies. Figurative works show bodies in action or repose, while various tangential or allegorically related objects approach the subject from more oblique vantage points. Flowers and vessels, fruit and furniture are in conversation with actual human bodies, all rendered in a limited palette of lights and darks.
